

KUSHAL
STONE
WALLS

Decorating dreams since 1988

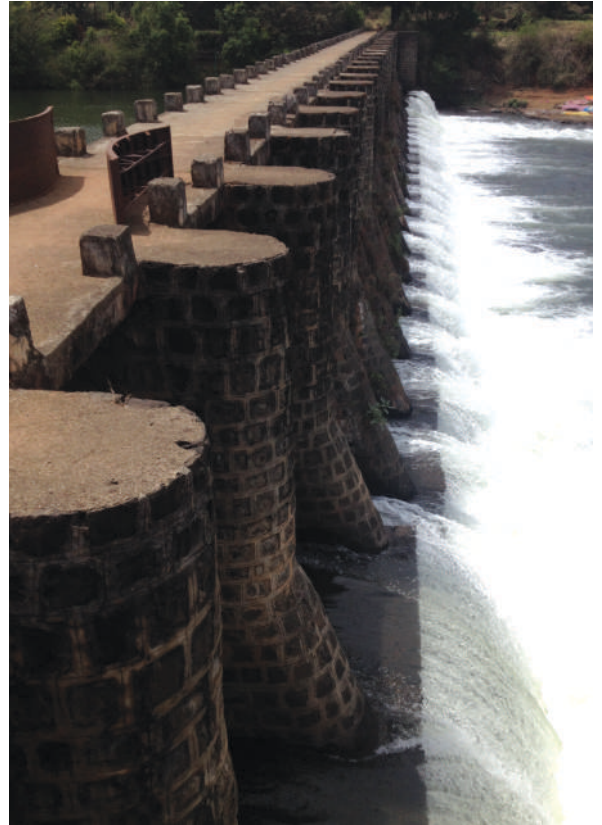

What we do

Kushal Stone Walls established 1988, specialises in Traditional Stone Masonry. Initiating mainly in infrastructure projects like dams, bridges, etc... we have grown over the years and forayed into specialised fields - Hardscape and Conservation | Restoration of stone structures.

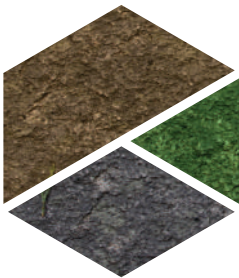

Kushal Stone Walls is the sole organization in India that provides end to end solutions for anything related to Basalt hand-tooled stone masonry.

For centuries, richest civilizations over the world have used natural stone architecture to set themselves apart. We dress stones for diverse appearances ranging from Rustic | Classical, to Elegant | Modish.

Kushal Stone Walls engages in 100% ecofriendly and sustainable activities, as all stone work is hand-tooled and makes use of natural local stone. We bring to the table, our expertise and experience acquired over the past 25 years. Our growing reputation for proficiency is largely acclaimed by our clients.
